Songs ranked by total plays. ● Bullets appear on songs gaining plays or remaining flat from previous week. A song will also receive a bullet if its percentage loss in plays does not exceed the percentage of monitored station downtime for the format. If two songs are tied in total plays, the song with the larger increase in plays is placed first. Songs below No. 20 are moved to recurrent after 20 weeks on the chart. Descending songs below No. 10 are moved to recurrent after 52 weeks on the chart. Most Added is the total number of new adds officially reported by each reporting station or by automatic add thresholds for stations not allowed to report adds. Songs unreported as adds do not count toward overall total stations playing a song. Most Increased Plays lists the songs with the greatest week-to-week increases in total plays.
